DESCRIPTION

- **2-pcs ball valve in acid-proof stainless steel** with dynamic stuffing box in PTFE. Suitable for demanding tasks.
- **ISO 5211 top flange** makes it simple and easy to mount an actuator without bracket and coupling. A compact solution with less connections = less slack.
- **Approvals:** TA-Luft, EU1935, FDA, SIL2, ATEX 2014/34/EC (Ex II 2 G D)
- **The stem is blow-out proof**, which also gives the benefit of increasing the stem sealing when pressure rises.
- **Maintenance free stuffing box** with belleville washers. Reinforced V-rings will provide optimum packing and longer lifetime - also at various temperatures.
